Guest Speakers

Tony Day, Accounts Payable Manager – *Tony led a power point presentation explaining the pro card policy changes and the new pro card types that are now being offered which will increase efficiencies by offering various options and by providing more flexibility when using the UK procurement card for purchases. The four types of cards are: Standard, Enhanced, Special Purpose, and Declining Balance. BPM E-7-16 for pro cards can be found at: <http://www.uky.edu/EVPFA/Controller/files/BPM/E-7-16.pdf>. Also, the power point document was emailed to everyone on 8/14/14. It is important to plan ahead as much as possible when these pro cards may be needed by your department. The pro card application form now has specific categories of cards from which to choose. Tony also mentioned that the three local utility companies will now allow UK to pay utility bills with the pro card, however, there is a nominal fee charged by the utility company to pay by pro card.*

Mary Fister, Assistant Controller – *Mary presented the second portion of the AP power point regarding the changes in the catering policy. Departments will use their standard procurement card to purchase catering services provided by UK Dining, the Boone Center and The Club at Spindletop Hall. Catering from UK Dining will be booked through the new on-line system called CaterTrax. To obtain a CaterTrax account, simply call 7-1741 for assistance. For the Boone Center and Spindletop, catering may be booked by calling the individual facility. Those numbers and more catering policy information are included in the power point document distributed on 8/14/14. For alcohol purchases at those three facilities on the pro card, you must use discretionary funds and G/L 540356. BPM E-7-16, the pro card application and supplemental information form, and the Pro Card Use for Catering FAQ's are included in the handouts.*

Lisa Collins, Assistant Dean for Administration – *Dr. Collins updated everyone on the faculty database, the program used for managing faculty records at the university. Some of the other colleges on campus were surveyed, and it was found that the management of their faculty database was centralized; whereas the CAFE faculty records are entered and maintained by approximately 45 individuals. Since the requirements for matching credentials in this database keep changing, it might be beneficial for the data entry to be done by the Dean's office. A copy of the new faculty demographic worksheet was distributed at the meeting and included as a handout. More information will be forthcoming about the faculty database management.*

Procurement Cards

Procurement Cards

I. Purpose

The University of Kentucky authorizes the use of multiple Procurement Card types to increase the efficiency and internal controls of purchasing. Procurement Cards may be used to pay for small dollar acquisitions, to provide an alternative for imprest cash funds and for travel advances. They may also provide optimal procurement and payment solutions for other suitable projects that have a defined purpose, timeframe and budget.

II. Policy

Procurement Cards may be made available to Regular faculty and staff upon approval of an application and a signed Procurement Card User Agreement for each specific card. All cards are issued in the name of the applicant and the cardholder is personally accountable for using the card in strict compliance with all University policies and procedures. Each card may only be used for expenditures directly related to the purpose/project/event for which the card is established. The records of expenditures must be maintained in accordance with the University's record retention policy and available for audit upon demand.

III. Definitions

1. Procurement Card Types

- a) Standard Procurement Card – This card is configured to allow the cardholder to make purchases authorized under the University policy for delegated procurement. [BPM B-3-2 Delegated Procurement Authority](#)
- b) Enhanced Procurement Card – Based on an application, this card may be configured to allow the cardholder to make purchases authorized under the University policy for delegated procurement as well as certain discretionary restricted purchases.
- c) Declining Balance Procurement Cards – Based on an application, this card may be configured for a specific time period and a specific spend limit that is reduced by each expenditure until the spend balance is exhausted or the time period expires. There are two types of declining balance cards:
 - a. Effective Date Card – This card may be set up with an authorized spend limit with a beginning and ending effective date. This type is generally appropriate for international group travel and short term projects (less than 6 months). A reconciliation of the expenditures is required quarterly throughout the travel/project and within 30 days of the end of the travel/project.
 - b. Revolving Card – This card may be set up with an authorized spend limit for an ongoing time period and the spend limit may be replenished periodically. This type of declining balance card is an alternative to an Imprest Cash Account, including limited cash access. The card is generally appropriate for extended projects with recurring expenditures throughout the project. (Examples are: A research project that includes payments to research subjects/survey participants and study abroad programs that include international group travel.) A reconciliation of the expenditures is required quarterly or with each request to replenish the spend limit, whichever occurs first.

Procurement Cards

- d) Open Procurement Card – Based on an application, this card may be configured to allow the cardholder to make purchases authorized under the University policy for delegated procurement as well as most other restricted purchases. Issuance is limited and applications must be specifically approved by the President, Provost or the Executive Vice President of Health Affairs as well as the Executive Vice President of Finance and Administration.
 - e) Special Purpose Card – Based on an application this card may be configured for a particular purpose/type of expense. It is generally only issued to address certain payments that require special reporting in support of administrative policies and regulations. Example: Payments on behalf of a student. A special purpose card established for payments on behalf of students would require that the cardholder be responsible for reporting additional information to Student Financial Aid. See BPM E-7-14 [Payments to Students](#)
2. **Procurement Card Reconciliation Report:** A report of the detail expenditure made on the card, supported with copies of all the documentation for each of the expenses. UK DINING Changes

The transition to UK's new dining partner — Aramark — began July 1. This new partnership will quickly lead to more food options, more convenience, and healthier choices for all those served. It will also usher in some new processes and procedures that will enhance efficiency, automate billing workflow, and provide more catering options.

One of the first changes that was implemented on July 1 is that journal vouchers (JV's) will no longer be utilized for catering. Departments will use a regular (standard) UK pro card to purchase all catering services provided by **UK Dining** as well as the **Boone Center** and **The Club at Spindletop Hall**.

This process will be a more efficient and effective system and, ultimately, will be easier for everyone involved as events are booked through UK Dining's new online system – **CaterTrax**. More information will be provided to departments on CaterTrax within a few weeks. Once on-line, charges will be billed and processed directly using the UK pro card directly to SAP.

Official events will be charged to cost centers in accordance with the existing discretionary expenditure policy. Details of that policy, which covers events where alcohol is served, can be found at: www.uky.edu/evpfa/controller/files/dispolpolicy.pdf. Separate invoices will be produced for food and for alcoholic beverages. Departments remain responsible to edit UK pro card charges to the appropriate cost center and GL and to retain the invoice records.

We know that transitioning from one system to another will take some time and will raise some questions. A website will be launched and face-to-face meetings will be scheduled within the coming weeks to provide additional information. In the meantime, here is how things will proceed:

- A UK pro card will be required to pay for official university functions for catering services, meals and activities provided by UK Dining.
- A UK pro card will be required to pay for official university functions for catering services, meals and activities provided by the Boone Center and The Club at Spindletop Hall.
- The use of a UK pro card for catering is specifically limited to UK Dining, the Boone Center, and The Club at Spindletop Hall. The pro card may not be used with other off-campus vendors. Specifically, a PRD created in SAP is still the requirement for off-campus vendors.
- In the event some departments do not have a pro card, please contact Laura Payton at Laura.Payton@uky.edu to start the process of obtaining a pro card for your department. A new card is provided within approximately one week. In the interim, UK Dining will work with your department during this brief transition period -- and will continue to process requests for catering. Final billing will be processed when the pro card is available.
- Within the next several weeks, meetings will be scheduled with business officers across the campus to discuss this transition and other issues related to UK Dining to ensure as smooth a process as possible. Invitations and more details about this event will be distributed soon.
- Some of the more frequently asked questions can be found at this link (and they are attached to this document):
<http://www.uky.edu/EVPFA/Controller/files/pay/ProcardUseForCateringFAQs.pdf>.

Changes such as this one will lead — and already are leading — to a more efficient, effective and responsive dining operation at UK. But, even as things are moving as quickly as possible, everyone will have to work together collaboratively to navigate the inevitable bumps in the road and understandable questions and concerns that arise along the way.

We are committed to working with you and getting answers to your questions as quickly as possible.

Federal Formula Grants 2014 Year-End Guidelines

1. To ensure that all transactions are posted to the appropriate fiscal year, please mark all documents “**OLD YEAR**” or “**NEW YEAR**” at the top of documents submitted to the Business Center from **Oct 1 - Oct 15**.
2. All requisitions on “**OLD YEAR**” funds will need to be completed by **Sept 10th**. This will help to ensure that PO’s are created and goods received by **Sept 30**. It should also help to ensure that all accounting entries are posted to the “**OLD YEAR**”.
3. All goods receipts transactions (MIGO) must be completed by **Sept 30th** to ensure they are posted to “**OLD YEAR**” funds.
4. In order to split the payroll for **BW21** appropriately across the two federal fiscal years, separate IT0027 records will be required (see below). If you have any questions about this, please contact Gina Vessels (7-7241 or ginavessels@uky.edu).
 - a. **One record for period 09/21 – 09/30 on old year fund ending in “14”**
 - b. **One record for period 10/1 – 10/04 on new year fund ending in “15”**
5. All DOE’s making changes to faculty payroll distributions for federal formula grants must be submitted by **Sept 5th by 12:00 noon**. Any DOE’s submitted after this deadline that contain “**OLD YEAR**” federal funds will be returned. **Funds for Federal Year “15” are loaded in SAP and active in FES and can be immediately used to update DOEs and payroll 0027 screens.**
6. All pro card editing for federal formula grants must be completed by **Sept 30th**. This will help to ensure that all charges are posted to the appropriate year.
7. All PRD’s and Travel Vouchers for “**OLD YEAR**” must be submitted to the Business Center by **Sept 22nd** to help ensure they are posted to “**OLD YEAR**” funds. Any submitted after this date are not guaranteed to post to “**OLD YEAR**”.
8. Any **goods/services received or travel expenses made prior to Sept 30th** for which you have not processed a payment document must have an **ACCRUAL** established. All requests to establish these accruals are due to Gina Vessels via email (ginavessels@uky.edu) in the Business Center by **Sept 30th**.
9. All JV’s making corrections to “**OLD YEAR**” postings must be completed and submitted to the Business Center by **Sept 22nd**. This should help to ensure they are posted by General Accounting before the month of Sept closes out. After this date, only the Business Center will be able to post JV’s to “**OLD YEAR**”.
10. “**OLD YEAR**” documents **submitted to the Business Center after the federal year-end deadlines referenced above require a Business Procedures Exception Request form** (<http://www.uky.edu/eForms/forms/bpexception.pdf>) **be submitted via email to ginavessels@uky.edu**. You will be contacted immediately when the exception request is approved or denied for processing.

-**Posting the job:** [IES ORG's](#) are linked to the [Ag Business Center](#) website. Student, department temporary, Post Doc, etc. positions can be posted through [IES Student/Other](#).

- **Determine I9 Requirement:** Determine **in advance** if the potential employee will need to complete an **I9 and/or background check**, and make appropriate arrangements.

- **Student Wage Scale:** When hiring students, please reference the [CAFE Student Wage Scale](#). If a department would like to request an exemption to the scale, the [Student Wage Scale Exemption form](#) should be completed and submitted online **in advance**.

-**Selecting the Position Number:** Always choose a position number with the correct reporting relationship, to maintain MSS access/accuracy. Please always review the reporting relationship in **PP01**, prior to entering the PA40 action. If you need a new, non-regular position created, please complete/submit the [Position Request Form](#).

-**Collecting paperwork:** Collect all of the applicable new hire paperwork (I9, tax form, signed app, direct deposit, etc.), and provide new student workers with the "Payroll Help Sheet for Student Workers."

-**Selecting the Personnel Action:** When determining which personnel action to use, the [Personnel Actions Cheat Sheet \(PA40\) ORG](#) may be helpful.

Note: HR asks that we use the [Reactivate Additional Assignment](#) action whenever possible. This action can be used to avoid creating an unnecessary additional personnel number for an employee. If an employee already has multiple personnel numbers, and at least one is inactive (ended, not separated), you can use this action.

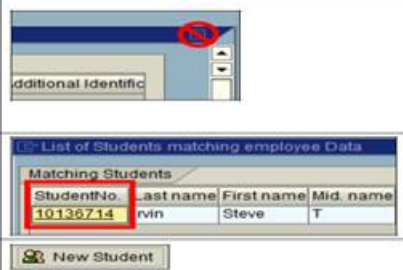

-**Avoiding a "?" in the ID Number:** When entering a new hire action, remember **do not close the "Students Matching Employee Data" window**, this will create an employee ID number with a "?" in it, that will have to be deleted.

List of Students matching employee Data Window

DO NOT CLOSE THIS POP-UP WINDOW by clicking on the X in the upper-right corner! Doing so will give the employee an invalid Person ID (i.e. "?_11046666"). If this happens, you will need to contact HR Compensation to have the action deleted, and then you will have to do the entire action again.

If any matches are found and the correct student record is listed, double-click on the Student ID and it will assign that number as the Person ID in HR.

If any matches are found but the correct student record is NOT listed, click on the **New Student** button and it will create a new record.

Screen 77 should be entered, and then you can detach the form prior to sending the ZPAR packet to the Ag Business Center. The *Motor Vehicle Record* should be sent to **Risk Management** at the address listed on the form. MVR forms should not be attached to the ZPAR.
